Our 1994 Peterbilt has a 425 manual Cat engine. As an owner-operator I know that your profit margin is in keeping your operating costs down. Using Pro-Ma Diesel Treatment has increased my fuel mileage consistently .5 to .8 mpg. This has resulted in a fuel saving of between \$200.00 and \$400.00 per month.

The MBL Grease has not only saved me money but time as well. I only do a complete grease job when I service the truck. Between services I will sometime grease the U-Joints or spring hangers. I have noticed that even on the 5th wheel the grease outlasts anything else I have ever tried.

I strongly recommend these products to everyone.
