

PERFORMANCE PRODUCTS

**ANOTHER
SATISFIED
CUSTOMER**

A good friend of ours recently (March 93) suggested that I try a range of products produced by Pro-Ma which he said that after he had tried he would recommend to anyone who has a farm or any equipment that moved! I must say that I am very skeptical of anything "new" in these products and having farmed with my brother for over 22 years "had seen them all", but I trusted Bill so I decided to try out these Pro-Ma products.

We have used nearly all their range including the diesel and gasoline fuel treatment, the MBL grease and the MBL concentrate for our tractors, trucks, seeding equipment and feeding equipment in hydraulics (hydrostatic) and P.T.O. areas, and in every case all I can say is that these products are phenomenal!! — They really work! They have saved us in "maintenance and fuel costs" since we started using them in March 1993. They have done everything that Pro-Ma said they would do, AND MORE!! Let me say I recommend the use of the Pro-Ma Performance Products to everyone!

Bernard Hamoline
Farm
ABERDEEN, Saskatchewan
Canada

Please note: Bernard and his brother seeded 3600 acres this year. Their farm is a credit to them in respect to their maintenance program and the upkeep of equipment. "It's cheaper to maintain than repair" says Bernard.
