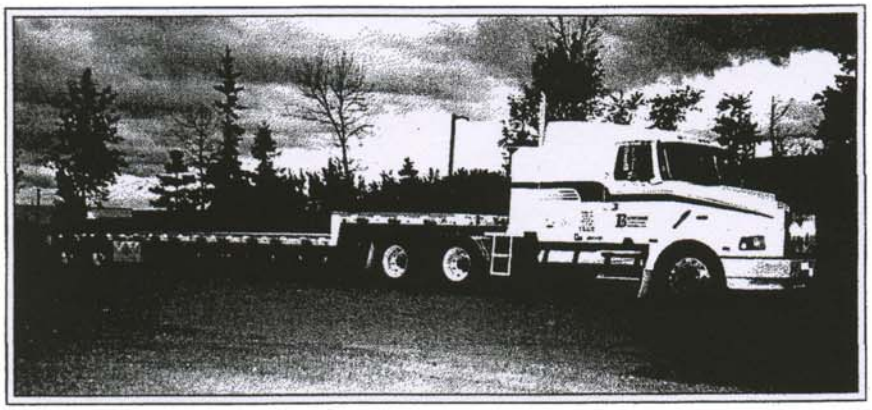
PRO-MA SYSTEMS

PERFORMANCE PRODUCTS

ANOTHER SATISFIED CUSTOMER



1988 Volvo white G.M.C. 365 Cummins engine
13 speed O.D. transmission
3:10 rear ends

Products used: PRO-MA's MBL Concentrate
MBL Grease
MBL Spray
Diesel Treatment

Approximate miles on truck when I first started using products; 337,000 or 543,138 km's.

Having had previous experience with the products. I was not hesitant to use the full range right off. Also having driven the truck as many miles as I had, felt I knew it fairly well.

Response's were:
Smoother, easier, quicker starting. Much quicker to smooth out at cold start. Less smoke at all starts. Better pulling power on long low slopes. Grease was used in all grease nipples, and running with a full load in hot weather in the mountains U-joints did not heat up. Within a three month period we went from 6.2 miles per gallon to 6.7 miles per gallon. (US gallons). 8% savings.

All in all very profitable for me as I feel it will extend the life of my truck, for who knows how long.
