

GT5 Gasoline Treatment & MBL8 Concentrate 8 Concentrate Testimony

Re: Gasoline Treatment
MBL8 Concentrate

I have a Ford Aerostar truck with a 4L engine.

I started using the **Pro-Ma GT5 Gas Treatment and MBL8 Concentrate** in December of last year. I don't keep track of my gas mileage, **but I would estimate that I have gained approximately 15% efficiency.** Since putting Pro-Ma Performance Products in my vehicle I have noticed several things happening in the performance of my truck. **It has more power and it is defiantly running smoother.**

I would highly recommend these products to everyone.

Yours truly,
