Armtrans Inc. Transport Calgary

Dear Sir,

I was introduced to Pro-Ma Performance product in October 1993.

I operate 3 units MACK E-400, Cummings 365 and a CAT 425. My business extend across the country with an average load of 100,000 lb. +. I have conducted tests on these products, for over a 1 year period; **Diesel Treatment, MBL Concentrate, MBL Spray and MBL Grease.**

Results on the MBL Grease:

On a trip from Calgary to Montreal I used to grease each trip, but now I am doing 2 trips before I have the need to grease again.

Results on the Diesel Treatment:

Overall an 8% improvement in fuel economy that means to me a saving of \$ 1000 per month per unit or \$36,000 in fuel savings in a year.

These incredible products have significantly reduced my operation cost and have improved the profitability of my business.

I am now totally convinced that the PRO-MA PERFORMANCE PRODUCTS are genuine, effective products that do precisely what the technical literature states. I can recommend them for reducing vehicle operating costs and improving performance.

MEL JOHNSTON
