

# PERFORMANCE PRODUCTS

## HIGH PERFORMANCE TESTIMONIAL

“As Atholwood Brothers Racing, we compete in Group 1 Nitro Funny Cars class. With in excess of 3500 HP there is huge stress on the vehicle components. We must use the best products available for vehicle and component protection. We use and recommend the Pro-Ma Performance Products from which we have had great results. We use the MBL Concentrate in our lubrication oil and for assembly. We have actually eliminated wear on rockers and cam followers. The MBL Grease is also used in the assembly of high performance boat and car engines in our business, as well as in the wheel bearings of our drag car. Since using the grease for assembly we have never had a problem with flat tappets or hydraulic lifters. The Maxi Dri-Kleen is excellent for keeping our black bodied drag car in show room condition without using water. I have no hesitation in recommending the entire Pro-Ma Performance Range to all vehicle operators.”

Ron Atholwood

**DRIVER:** Ron Atholwood  
Age: 33  
**THE VEHICLE:** 1991 Camaro  
**MOTOR:** 500 CU IN Keith Black V8  
Dart Billet Heads - Billet  
Crank  
**FUEL:** Nitro Methane
